# Easily Applied and Designed for The Most Professional Finish

A versatile acrylic based premium grade filler and caulk, FC1 is designed specifically for professional users and utilises scientific advancements in elastomer technology.

With its unique blend of acrylic polymers and selected fillers made to the very highest specification, FC1 bonds and seals gaps between wood, metal, brick, stone, plaster and plastics.

FC1 is quick drying with a super smooth finish that's ideal for filling and sealing in skirtings, architraves, door frames, coving and window sills in preparation for painting and papering.

A premium product from the creators of CT1 - FC1 is Made in Britain with British design and British technology.

# Provides the **Perfect Solution** for Sealing Gaps Without Slumping

**Super smooth finish - no sanding required** ✓

**Fill up to 25mm in one application** ✓

**Acrylic based with maximum flexibility** ✓

**Contains no solvents** ✓

**Will not crack** ✓

**Superior colour stability** ✓
